

Aruba Certified Engagement and Analytics Professional (ACEAP) V1

This certification validates that you can design, develop and deploy Meridian based applications with Aruba Beacons for location aware applications.

It validates your ability to:

- Understand the Meridian product line and Aruba Location solutions
- Understand how to design and deploy Aruba Location solutions with Aruba location and proximity beacons
- Describe Meridian Appmaker and SDK, maps and app content creation
- Configure and monitor Aruba Beacons using remote beacon management
- Identify the need for ALE and third party analytics
- Troubleshoot Beacon deployments and campaigns
- Integrate Aruba location services with ClearPass

Why earn this certification?

- Position yourself as a professional developer of location and non-location aware Meridian powered applications and location solutions
- Demonstrate your ability to design and deploy applications using the Meridian cloud based Appmaker platform
- Enhance your career as an Aruba Certified Engagement and Analytics Professional

Candidate

Typical candidates for this certification are networking IT professionals or technical marketing professionals looking for technical certification in Aruba Engagement and Analytics.

Skill level

Expert
